GREEN VISION SERVICES

ESTD. : 2018

ABOUT US

Green Vision Services Pvt. Ltd. (GVS), established in September 2018 and registered under the Company Register Office (CRO) of the Ministry of Industry, is a consulting firm providing multidisciplinary expertise for both public and private sector projects. GVS specializes in integrating green and grey environmental solutions to support the development of policies, plans, and projects aimed at biodiversity conservation and natural resource management.

Since its inception, GVS has expanded its activities across various disciplines, consistently delivering high-quality, timely results while adhering to professional standards and ethics. The firm's dedication to excellence is reflected in the satisfaction of its clients, who commend its staff's professionalism, smooth operations, and the superior quality of completed projects.

GVS has emerged as a trusted consultancy, known for its commitment to nation-building through expert performance and the development of specialized professionals. The firm is dedicated to meeting the diverse needs of its clients, ensuring reliability, trustworthiness, and a high level of service. GVS also seeks to promote goodwill and strong client relationships, while offering dependable consultancy services in the engineering sector as well.

OUR APPROACH TO CONSULTING SERVICES

Green Vision Services Pvt. Ltd. is a diversified, competitive, and service-oriented organization committed to providing expert solutions across a wide range of sectors

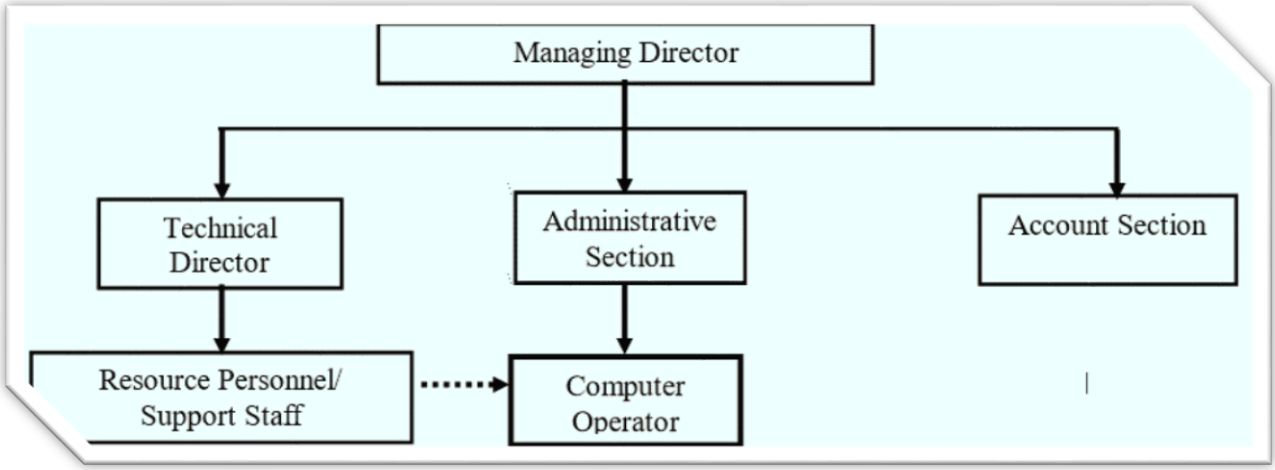
Service Category	Specific Offerings
Forest and Biodiversity Studies	- Forest Inventory and Biodiversity Assessment
	- Wildlife Studies, Conservation, and Management Planning
Climate change	- Climate Risk Assessment and Adaptation Planning - Climate Data Analysis and Modeling -Education, Capacity Building, and Stakeholder Engagement -Monitoring, Evaluation, and Impact Assessment
Watershed and Environmental Assessments	- Watershed Inventory and Management Plan
	- Environmental Studies:
	- Initial Environmental Examination (IEE)

Service Category	Specific Offerings
	- Brief Environmental Studies (BES)
	- Environmental Impact Assessment (EIA)
Medicinal and Aromatic Plants (MAPs)	- Value Chain Analysis for MAPs
	- Phytochemical Analysis and DNA Barcoding
Geological and Geophysical Services	- Geological Investigation:
	- Base Map Preparation
	- Electrical Resistivity Tomography (ERT)
	- Geological Profiling
Waste Management and Quality Testing	- Waste Management Studies and Treatment Strategies
	- Quality Testing and Analysis:
	- Air, Water, Soil, and Noise
Ecotourism and Socioeconomic Development	- Ecotourism Development Plans
	- Socioeconomic Surveys
Geospatial and Analytical Tools	- Geographic Information System (GIS) and Remote Sensing
	- Mapping and Modeling (including Village Profile Mapping)
Additional Services	- Tailored training programs
	- Public awareness campaigns

MISSION, VISION AND GOAL

Mission	Vision	Goals
To deliver innovative, sustainable, and high-quality environmental solutions that exceed client expectations while fostering collaborative partnerships built on trust and mutual growth.	To lead in sustainable environmental consultancy by delivering innovative solutions that benefit communities, protect ecosystems, and ensure a thriving future through ethical practices and expertise.	• **Excellence**: Upholding top-tier service and integrity. • **Sustainability**: Championing eco-friendly practices. • **Collaboration**: Fostering trusted partnerships. • **Innovation**: Advancing methods and technologies. • **Impact**: Preserving resources and empowering communities.

ORGANIZATION STRUCTURE



The organizational structure of Green Vision Services is designed to ensure seamless operations and effective management of its environmental consulting projects.

At the top of the hierarchy is the Managing Director, who oversees the strategic direction, business development, and overall management of the organization. Reporting to the Managing Director is the Technical Director, responsible for supervising the technical teams, ensuring the quality of project deliverables, and driving innovation in environmental solutions. Supporting the organization's core operations are the Administration Section and Account Section.

The Administration Section handles day-to-day operational logistics, client communications, and internal coordination, while the Account Section manages financial planning, budgeting, invoicing, and payroll to ensure financial health. Finally, the Support Staff provide essential services across departments, ensuring smooth execution of tasks, including fieldwork, documentation, and office maintenance. This hierarchical yet collaborative structure allows Green Vision Services to maintain efficiency, accountability, and excellence in delivering environmental solutions.

OUR WORK EXPERIENCE

We have successfully assigned jobs listed below. What is listed below is a selection of the jobs we have implemented over the last five years in different thematic areas:

S.N	Assignment	Location	Value of contract /Million	Client	Description of the work	Year of completion
CATEGORY : ENVIRONMENTAL STUDIES						
1.	SEIA of Upper-Trishuli hydropower project 216 MW	Rasuwa	0.6	Nepal water and Energy Development corporation	Preparation ofSEIA report and submitted to DOED and Ministry of Forest and Environment	2080/81
2.	IEE study on Kabeli Hydropower project , Panchthar, Taplejhun and Tehrathum	Panchthar and Taplejung	0.8	Kabeli Energy limited	Revised IEE study	2080/81
3.	EIA of Upper Madi-0 Hydropower project.	Madi, Kaski	1.2	Annapurna power Company	Preparation and EIA report and submitted to Ministry of Forest and Environment.	2078/79
4.	IEE study of Nishikhola Hydropower project , Baglung	Nishola, Baglung	0.5	Annapurna Power company	Prepared IEE report and submitted to Ministry of Forest and Environment.	2078/79
5.	IEE of Hariharkshetra irrigation project, Sarlahi	Hariwon , Sarlahi	0.43	Bagmanti irrigation project, Sarlahi	Prepared IEE report and submitted to Ministry of Energy, Water resource and irrigation.	2078/79
6.	Gophuche Hydropower project, Kaski	Kaski	0.5	Impower Limited	Prepared IEE report and submitted to Ministry of	2079/80

S.N	Assignment	Location	Value of contract /Million	Client	Description of the work	Year of completion
					Forest and Environment.	
7.	IEE study of Sarre Sota and Chepe khola reservoir	Ghorahi, Dang	0.42	Maga Dang Valley irrigation project	Preparation and approval of IEE report of Sarre sota and chepe Khola reservoir irrigation project.	2075/76
CATEGORY : WATERSHED DISASTER MANAGEMENT STUDIES						
8.	Monitoring and mitigation plan of Shrawan Dada landslide, Buwal (SITARA-INK-GREEN VISION JV)	Butwal,Rupandehi	44.49	President chure-Terai Madhesh Conservation development board,Programimplimentation unit, Butwal	Detail Field investigation and report preparation of monitoring and mitigation plan of Shrawandanda landslide.	080/81
9.	Monitoring and analysis of soil erosion rate in Kulekhani Watershed area, Makawanpur	Makawanpur	1.36	watershed management resource center, Makawanpur	Adopted the suitable method for soil erosion measurement. Field work and data collection. Lab work Prepared final report and submitted to client.	080/81
10.	Measurement of soil erosion by runoff plot method in Kulekhani Watershed area.	Makawanpur	1.45	Federal watershed management resource center, Makawanpur	Adopted the suitable method for soil erosion measurement. Field work and data collection. Lab work Prepared final report and submitted to client.	2079/80
11.	Water and soil quality test in Indra Sarowar watershed area.	Mawanpur		Federal watershed management resource	Collection of water and soil sampling. Tested and analyzed of water and soil quality.	2078/79

S.N	Assignment	Location	Value of contract /Million	Client	Description of the work	Year of completion
				center, Makawanpur In Association with ECN	Preparation and submission of final report.	
FEASIBILY, DPR AND MANAGEMENT PLAN						
12.	**Watershed mapping and preparation of action plan of sensitive wetland of Chidiya and its associated lakes**	Kailali	0.96	Federal watershed management resource center, Makawanpur	Watershed mapping, stakeholder engagement and Preparation of detail action plan for the including timelines, responsible agencies, and resource requirements	2080/81
13.	Feasibility study of Ski program in western Nepal		0.26	Nepal Mountain Academy, Ministry of culture, tourism and civil aviation.	Site survey, GIS mapping, analysis and report submission	080/81
14.	Impact study and report preparation of lift irrigation project of Sikta Sisahaniya and Haripaura, Dang	Dang	0.43	Mega Dang valley irrigation project	Site survey, Study of effectiveness of technical intervention, Public meeting and interview, STOWT Analysis and Report preparation.	2077/78
15.	DPR formation of Taprang zoological park, kaskti	Kaski	o.35	Madi rural municipality, kaski	DPR and management plant formation	2076/77
16.	Management plan of Tulsipur Botanical garden, Dang	Dang	0.42	Division forest office, Dang	Preparation of management plan, Garden design, DPR preparation	2075/76
17.	Feasibility study of Botanical		0.42	Ministry of Industry,	Feasibility, site selection and DPR of	2075/76

S.N	Assignment	Location	Value of contract /Million	Client	Description of the work	Year of completion
	garden in Palpa District			tourism, forest and environment, Province-5.	Botanical garden in Palpa District	
18.	Management plan of Multipurpose Botanical garden, Ghorahi Dang	Dang	0.42	Forest directorate, Ministry of Industry, tourism, forest and environment, Province-5.	Preparation of management plan, Garden design and DPR preparation	2075/76
19.						
20.						
BIODIVERSITY AND WILDLIFE CONSERVATION						
21.	Species specific human wildlife conflict management guideline	Banke and Bardiya	0.43	ILaM project, Ministry of forest and environment	Species Analysis, Conflict Identification, Community Engagement and establishment of Monitoring Framework.	2080/81
22.	Study on wildlife traffic accident issues in Nepal	Banke Bardiya complexes.	0.34	ILaM project, Ministry of forest and environment	Assessed the status of wildlife traffic accident issues, driving factors, preventive and mitigation measure and suggest appropriate measures to minimize the impact.	2079/80
23.	Plant inventory in Jagadishpur reservoir, Kapilvastu.	Kapilbastu	0.5	Ministry of Industry, tourism, forest and	Field Surveys, Species Documentation, Biodiversity	2076/77

S.N	Assignment	Location	Value of contract /Million	Client	Description of the work	Year of completion
				environment, Lumbini Province	Assessment, Data Interpretation and report writing.	
24.	Value chain analysis of Taxus wallichiana in Ilam district.	Ilam	0.48	Plant research center, Ilam, Koshi Province.	Public consultation, Market chain analysis, stock potential analysis, mapping of ecological distribution all over the Nepal, SWOT analysis, recommendation to policy makers.	2076/77
25.	Value chain analysis of Gaultharia fragmentissima in Ilam district	Makawanpur	0.42	Plant research center, Makawanpur, Bagmati Province.	Market chain analysis, Stock potential analysis, mapping of ecological distribution all over the Nepal, SWOT analysis, recommendation to policy makers.	2076/77
26.	Study of Medicinal plant diversity in Rasuwa and Makawanpur district	Rasuwa and Makawanpur	1.2	Plant research center, Makawanpur , Bagmati Province	Study diversity of medicinal plants, Ecological distribution and Mapping of pocket area of important MAPs	2077/78

PERMANENT HUMAN RESOURCES

Below is a list of our permanent key employees, whose expertise, dedication, and leadership play a vital role in shaping the success and growth of our organization. Each team member contributes significantly to our mission, ensuring excellence in their respective roles.

S.N	Name	Designation
1.	Mr. Devendra Pandey	Managing Director
2.	Mr, Chetmani Chaudhary	Project Coordinator
3.	Mrs. Goma kharel	Finance director
4.	Er. Raju Sharma	Technical Expert
5.	Mrs. Shanti K.C.	Assistant

Mr. Devendra Pandey
(Managing Director/Conservation biologist)

Mr. Chetmani Chaudhary
(Project coordinator,/Environmentalist

Er. Raju Sharma
(Engineer, Hydropower)

Mrs. Goma Kharel
(Finance/Administration)

Mrs. Shanti KC
(Assistant)

AVAILABILITY OF REQUIRED KEY PROFESSIONAL PERSONNEL

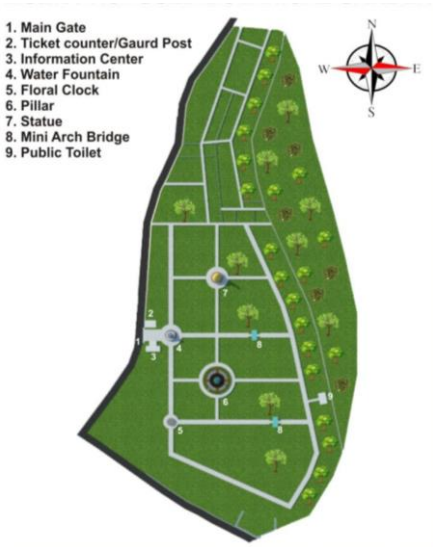
Resource persons and supporting staff working with the consulting firms are presented in the Table:

Name of expert	Qualification	Expertise	Experience
Mr.Bijay Raj Paudel	Ph.D Scholar in forest management	Landscape ecologist and climate change expert. Retired undersecretary from MoFE	35 years in field of watershed management and biodiversity conservation
Mr. Surya kishor Khanal	MA Sociology B.Sc.Forestry	Senior forest expert and Environmentalist	30 years in
Mr.Ananda Ram Ghimire	M.Sc.Watershed management	Senior Watershed expert.	25 years of expertize in watershed and conservation.
Dr. Basanta Paudel	Post. Doc. CAS, China	Land use change, GIS and Remote sensing	12 years of in related field
Dr Narayan Ghimire	PhD	Aquatic ecologist/ MAPs expert i	10 years
Mr. Prakash Chandra Aryal	M.Sc. Environmental science	Conservation biologist, wildlife expert and Academician	15 years of experience in related field
Dr. Ekananda Paudel	Ph.D, UCAS, China	Plant taxonomist	10 year of experience in related field
Dr. Deepak Sharma	PhD	Bioinformatics and DNA Barcoding expert	10 year of experience in related field
Dr. Mukti Paudel	PhD.in Ethnobotany	Ethnobotany and Natural resource management expert	12 year of experience in related field
Mr. Rajan Khadka	M.Phil.	Sociologist	8 year of experience in related field
Mrs. Ganga Pun	MA, M.Phil.	Sociologist	5 year of experience in related field
Mr. Devendra Pandey	M.Sc. BEM	Environmentalist/Conservation Biologist	7 year of experience in related field
Mr. Chetmani Chaudhary	M.Sc. BEM	Environmentalist and GIS expert	6 year of experience in related field

Name of expert	Qualification	Expertise	Experience
Mr. Lekh Pd. Bhatta	M.Sc. Geology	Engineering geologist and DRRM Expert	8 year of experience in related field
Mr. Bishnu Adhikari	M.A (sociology), M.A (geography), LLB	Geographer GIS expert, Sociologist and advocate	10 year of experience in related field
Mr. Bishnu Rijal	M.SC. Botany M.A Anthropology	Taxonomist/Sociologist	7 year of experience in related field
Er. Hari Paudel	M.Sc. Hydrology, BE Civil	Senior Water Resources Expert	12 year of experience in related field
Er. Shree Ram Dhakal	M.Sc. Transportation, BE Civil	Senior transportation Engineer	12 Years in related field
Mr. Sudeep khadka	M.Sc. Forestry	Wildlife expert	5 year of experience in related field
Mrs. Kranti Kumal	M.A Sociology	Sociologist	7 year of experience in related field
Mr. Bharat Bhattarai	M.A	Economist	4 year of experience in related field
Mrs. Sunita Acharya	M.Ed (EPM)	Educational planning expert	6 year of experience in related field
Mrs. Goma Kharel	MBS	Finance and Accounting	5 year of experience in related field

We're ready to draw on a wider range of expertise if the project demands it!

CONSULTANT'S COMMITMENT



EXPERIENCE TESTIMONIALS

Government of Nepal

President Chure-Terai Madhesh Conservation Development Board

Program Implementation Unit

Butwal, Rupandehi

Ref. No. 78/2081/082

Date: 20th September, 2024

To WHOM IT MAY CONCERN

This is certified that Joint Venture of **Sitara Consult Pvt. Ltd. (SITARA), Ink Consult Pvt Ltd. (INK) and Green Vision Services Pvt. Ltd. (GVS), [Herein after called SITARA – INK – GVS JV], Patandhoka, Lalitpur** has successfully completed the Consultancy Services for **"Mitigation and Monitoring Plan of Shrawan Danda Landslide, Butwal."** RFP No: RFP/080/81-01.

The details of the services carried by the consultant under the scope of the services are as follows:

Contract Agreement Date: 2080/11/14 (26th February, 2024)
Completion Date: 2081/03/012 (26th June, 2024)
Contract Amount: NRS.4,449,940.00 Including VAT

Key Project Features:
Location – Butwal, Rupandehi, Lumbini Province
Phisiographic Location – Siwalik (Chure)
Landslide Area – 80 Ha
ERT Length Conducted – 3200 m
Topographic Survey Type – Fixed Wing DRONE with DGPS

Description of Major Activities Performed

- Intensive consultative meeting/ seminar/ workshops among the stakeholders including local level government, community-based organizations, affected community people and related government organizations.
- Assess the drainage pattern (surface and subsurface) of the catchment of the landslide area and delineate the potential zones for safe drainage for future
- Identify subsurface geological formation of the landslide area and interaction of groundwater with the subsurface layers, and delineate the vulnerable zone according to geophysical and hydrogeological investigations.
- Assess the existing vegetation and identify suitable species for landslide control intervention.
- Assess the landslides risk to the neighboring settlements and infrastructures.
- Estimate the factor of safety of landslides mass of the slope before and after case scenario using appropriate geotechnical tools and numerical modeling.
- Prepare a high-resolution Ortho-mosaic image (0.25 m) and a DEM-bare earth elevation model (0.25 m) of the landside area.
- Prepare a detailed contour map of entire landslide area under study with high precision in 0.25 m contour interval of vertical data accuracy.
- Conduct necessary geotechnical investigation including soil sampling, core cutting, in situ test.
- Identify the engineering and bio-engineering measures to mitigate landslides.
- Provide detailed designs, including 3-D models and cost estimation of each engineering and bio-engineering measure with a year-wise intervention schedule.
- Identify parameters and delineate locations for the monitoring instrument in the landslide body.
- Perform a cost-benefit analysis of proposed mitigation measures.
- Prepare detailed report with recommendations and conclusions, detailed cost estimate, design and drawing of proposed mitigation plan.

The consultant has satisfactorily completed the job as per contract and we wish every success of the consultant in its achievement in the future endeavor.

To whom it may concern

This is to certify that **Green Vision Services Pvt. Ltd., Kathmandu** has successfully completed the "**Watershed mapping and preparation of action plan of sensitive wetland of Chidiya and its associated lakes.**" Summary of the work completed is described hereunder.

SN	Name of the Project	Date of Agreement	Date of Completion	Contract Amount (NRs)
1	Watershed mapping and preparation of action plan of sensitive wetland of Chidiya and its associated lakes	2080/07/13	2081/02/24	9,60,000.00

Major responsibilities carried out under this project are

- Conduct baseline surveys to gather ecological, hydrological, and socio-economic data about the lakes and surrounding areas.
- Organize workshops and focus group discussions to collect input for the action plan.
- Set specific, measurable, achievable, relevant, and time-bound (SMART) objectives for ecological restoration, water quality improvement, and biodiversity conservation.
- Develop a detailed implementation framework, including timelines, responsible agencies, and resource requirements.
- Compile and document all findings, methodologies, and proposed actions in a comprehensive action plan document.

We found the services provided by the consultant were satisfactory. We wish every success of the consultant in its future endeavors.

To whom it may concern

This is to certify that **Green Vision Services Pvt. Ltd., Kathmandu** has successfully completed the consulting services on "**Establishment of Soil erosion measurement plot on the basis of different land cover types**."

Summary of the work completed is described hereunder.

SN	Name of the Project	Date of Agreement	Date of Completion	Contract Amount (NRs)
1	Establishment of Soil erosion measurement plot on the basis of different land cover types, Makwanpur	2078/06/31	2079/02/27	1,455,000.00 (excluding VAT)

Major responsibilities carried out under this project are

- Site survey and selection of suitable terrain for plot establishment
- Preparation of modified land cover as per ToR for the investigation
- Construction of borrow pit and installation of rain gauge.
- Fencing and slop correction
- Sample collection and calculation of erosion rate in pre monsoon, monsoon and post monsoon.
- Data analysis and recommendation.

We found the services provided by the consultant were satisfactory. We wish every success of the consultant in its future endeavors.

Ref. No.

20 June, 2020

To,

Green Vision Services Pvt. Ltd.

Kathmandu, Nepal

Appreciation Letter

On behalf of the Plant Research Centre Ilam, I would like to thank the entire team of Green Vision Services, Kathmandu for successfully completing a research project entitled "Value chain analysis of *Taxus wallichaina* (Himalayan Yew)", within the given time frame. I want to congratulate on doing such a great job of preparing a scientific report of market chain analysis of such an economically important medicinal plant .The dedication, hard work and extra hours that you all have put in during the past six months have made the project much successful. I look forward to this kind of support in the days to come.

Thank you once again for being a wonderful team !

Regards,

Jeevan Pandey

Office In charge and Scientific officer
